Town Meeting - March 9. 1942

In response to the foregoing warrant the voters of the Town assembled in the Town Hall on the date and hour specified.

The meeting was called to order by the Town Clerk and the following business was transacted,

Article 1. Chose George H. Burnett as Moderator.

Article 2. It was voted to accept the Reports of the various Town officers and Committees as Printed in the Annual Town Report and place them on file with the Town Clerk

The Report of the Committee appointed under article 23 of the Annual Town Meeting held in March 1941 was read and placed on file.

Report of Committee to Examine into the Advisability of the adoption by the Town of Southborough of the Commission and Town Manager Form of Government.

At the Annual, 1941, Town Meeting of the Town of Southborough, it was voted that the Moderator select a Committee to study the Commission form of government and to see if its application to the Town of Southborough was feasible. The Chairman appointed the following Committee:

Ralph D. Hinckley
Everett Flanders
Charles G. Varey
Frank Mattioli
George H. Burnett, Chairman.

The Commission form of government, with a Town manager, has been adopted by 482 towns and cities in the United States - by far the greater number being outside of New England. In Maine 21 municipalities, and in Vermont, 13 municipalities have this form of government; in Connecticut there are four and in Massachusetts there are 4.-

Norwood	Pop.	15,000.	adopted	1915
Middleboro	Pop.	9,300.	"	1921
Mansfield	"	6,500.	"	1921
Stoughton	"	8,600.	"	1922

In New Hampshire and Rhode Island, none. Three towns in Massachusetts - Fall River, Waltham and Orange - have tried out the plan and have abandoned it. In other words, since 1922, the three towns and cities which have adopted this form of government have discontinued it and reverted to their former type.

The installation of the Commission form of government, with a Town Manager, involves special legislation by the State Legislature. In the Commission form of government, a Town Manager is selected by the Selectmen and is responsible to them. He usually assumes all or some duties of the following town offices: Superintendent of Streets, Chief of Police, Chief of the Fire Department, Superintendent of Parks, Superintendent of Sewer and Water System, Chairman of the Board of Health and, in addition, may conduct a centralized purchasing agency for the Town. In Mansfield and Middleboro he operates the Municipal Electric Light Plant as well. His salary runs from $3,600. upwards, depending on the size of the job.

Savings in this form of government are brought about - first, by the elimination of a number of salaries and consolidation of clerical work and, secondly, by more effecient operation of the Town's physical activities.

In order to see whether the Town Manager form is applicable to Southborough, it was first necessary to study the financial set up of some of these other Towns, and Mansfield and Middleboro were selected. In these towns, the citizens are greatly pleased with their form of government.

Mansfield has net expenditures of approximately $437,000: Stoughton $479,000. and Southborough $145,000.

In figuring the net expenditures, transfers, agency accounts and payments of loans and interest have been deducted, and in the case of Mansfield, the cost of operating the Municipal Electric Light Plant.

The operation of towns or cities having expenditures of upwards of $300,000. involves a considerably different setup than a smaller town. For example: In smaller Towns, as is the case with Southborough, there are working superintendents, that is, the Chief of Police, Chief of the Fire Department, Superintendent of the Water Department, and Superintendent of Streets, all who do actual physical work and cannot be replaced by a Town Manager. In the larger type of cities, the duties of these superintendents are confined largely to office work and general supervisory work, and they have clerks to help them in their paper work. In other words, in Southborough, the appointment of a Town Manager would result in no saving in the way of salaries. In fact, the Town would be loaded with a minimum salary of $3,600. a year and the expenses of a modest office force of one or more clerks as well. It is possible that some greater efficiency in operation might be developed, but your Committee believes that the savings in this way, difficult as they are to compute would be slight.

As for the savings in purchases, in 1940 the Town of Southborough spent, approximately, $18,900. for supplies of this the largest amount was $7,960. for supplies for the Highway Department, consisting largely of road oil, tar, sand, gravel, directional signs, cable, posts etc. on most of which items prices are set by the State Department of Public Works, or else are purchased as a result of competitive bidding, so that there would be no opportunity of a saving in this direction.

The next largest single item is fuel, which amounted to $3,342. It is possible that some slight saving might be made in this direction, but this, we believe, can be handled by the passage of a by-law at the next Annual Town meeting authorizing the Selectmen to purchase the fuel for all departments. Possibly other savings will be effected by closer co-operation between the different Departments of the Town.

This leaves us with $7.340. for all supplies - the largest item of which is for school books, stationery etc., $1560. the purchase of which should probably remain with the School Department.

This again leaves us with approximately $5,800. divided up in such items as stationery; books for the Library; pipe for the Water Department; gravel and seed for the Cemetery; arsenate of lead for the Tree Warden, hose and tools for other Departments, among a great many other small items. Your Committee doubts whether any material saving could be made by centralized purchasing.

In an interview with Mr. Ralph S. Hinckley, the acting Town Manager of one of the Towns referred to above, stated that, in his opinion Southborough was not large enough to operate under the Commission form of government with any chance of a saving exceeding the added expenses.

The Committee, at the suggestion of Mr. Frank Mattioli, also looked into the methods used in saving money in the Town of Lunenburg. There the Town felt that it was to their best advantage to combine some of the town offices by electing the same person and appointing him to other different offices. This requires no special legislation, but it gives the Town an operator who receives sufficient money from the combined salaries to warrant his devoting his entire time to the duties of the different offices.

This plan involves no special legislation, and is entirely a matter of the desire of the citizens. In Lunenburg, the following offices are combined: Town Clerk, Collector of Taxes, Treasurer, Clerk of the Board of Public Welfare, Clerk of the Board of Selectmen and Clerk of the Board of Health.

Your Committee feels that, certainly, the offices of Collector of Taxes and Treasurer should not be combined in one person and doubts if the Lunenburg plan would be satisfactory to the citizens of our Town, as a whole. We, therefore, make no recommendation as to this plan.

Your Committee feels that the citizens of the Town have been wise to have the Commission and Town management form of government investigated, as it is evident that in these days of higher taxes, every opportunity of investigating methods of saving money and operating more efficiently is prudent and far-sighted.

We do, however, for the reasons given above, feel that Southborough is not large enough to install the Commission and Town management form of government because of the lack of opportunity for effecting any substantial saving and, therefore, recommend that no further action be taken.

Report of Committee on Air Raid Warning Signal.
Mr. Harrington, Chairman Reported.
Voted to accept Report as read and place on file.

Report of Air Raid Alarm System - March 9, 1942

Your Committee feels that in reporting on this extremely complex subject, the only wise and fair report is one that details various types of systems with their costs for the consideration of the people of Southborough. There are so many factors to be taken into consideration that the Committee does not feel that it can conscientiously recommend any one alarm system as being the best for our conditions.

We have tried to impartially detail both the advantages and disadvantages of each system together with their approximate costs. It must be borne in mind that no matter what type of equipment is decided upon, priorities must be considered and the delivery date will be very much of a question.

Any of the systems detailed below we feel would be an improvement on our present system.

1. Move present siren from main Fire Station to top of Town Hall. Control from both Town Hall and Fire Station.

Cost: $500. plus.

Advantages: Probably somewhat better coverage. Control from Town Hall.

Disadvantages: Present siren about 20 years old. Doubtful if worth the money to move for somewhat better coverage gain. Possible failure of power.

2. Install 5 or 7½ h.p. siren on Town Hall. Use old siren for fire until end of emergency.

Cost: 5 h.p. -- $700. 7½ h.p. -- $790.

Adv: Certain better coverage than present siren, but far from complete. Control from Town Hall. Useful for Fire Signal after emergency as present siren will probably have to be replaced soon.

Disadv. As stated above, coverage not complete. Possible failure of power.

3. Two siren installation, Town Hall and Oak Hill. Control from Town Hall.

Cost:- 2 - 2 h.p. sirens at $215.-$430. Remote controls at $40--- $80. Installation at $150---$300. 2 miles wiring at $350 -- $700. Total $1510.

2 --- 5 h.p. sirens at $360.---$720. Remote controls at $40. --- $80. Installation at $300.--$600. 2 miles wiring at $350..$700. Total $2100.

Adv: Still better coverage. Control from Town Hall. Use as eventual Fire Alarm system.

Disadv: Still not complete coverage. Possible power failure.

4. Three siren installation, Town Hall, Oak Hill and South Union School.

Cost: 3 -- 2 h.p. sirens at $215.	$ 645.00	substitute 5 h.p. for
3. Remote control at $40.	120.00	2 h.p. -
Installation at $150.	300.00	cost $3150.00
5 miles wiring at $350.	1050.00	
Total	$ 2115.00	

adv. Still better coverage. Control from Town Hall. Use as eventual Fire system.

Disadv. Still not complete coverage. Possible power failure.

5. Two Diaphone Air Horn installation, Town Hall and Oak Hill, complete with controls and tanks but lacking Fire alarm coding system.

Cost:	2 Horns, plus tanks, valves + controls at $650.	$ 1300.00
	Installation at $300.	600.00
	2 miles wiring at $350.	700.00
	1 Trailer Compressor	1320.00
	Total.	$ 3920.00

adv: Good coverage. Independence of power failure. Control from Town Hall. Town will have start of excellent Fire alarm system. Town will have use of most useful piece of equipment in compressor.

Disadv: not complete coverage.

6. Four multiple sirens installed Town Hall, Oak Hill, South Union School, and hill above Mr. B. Danaliz's stable, Chestnut Hill Road.

Cost:	4 - 2 h.p. sirens at $215. --	$ 860.00
	4 - Remote controls at $40.	160.00
	Installation at $150.	600.00
	4. 6 miles wiring at $350.	2100.00
	Total	$ 3720.00

adv: nearly complete coverage, control from Town Hall. Eventual use as Fire alarm system.

Disadv: Possible power failure.

7. Two Diaphone Air Horn system, installed at Town Hall and South Union School, complete with all necessary equipment and to include fixed compressor at Town Hall plus a portable compressor for use at South Union School. (See Gamewell letter 12/15-41)

Cost: $8500.00

adv: Good coverage. Independence of power failure. Excellent Fire alarm system.

Disadv: Probably not complete coverage

As an alternative to wiring between signals, there is a possibility that telephone lines could be leased over which these remote signals could be sounded. We have been advised by the Telephone Company that a line could be leased from the Town Hall to the South Union School at a cost of approximately $26.00 a month or $312.00 a year.

This amendment amends article XLVIII of the amendments to the Constitution by striking out section three under the heading "The Initiative. II Initiative Petitions" and inserting in place thereof a new section which provides,-

That an initiative petition for a constitutional amendment or a law shall first be signed by ten qualified voters of the Commonwealth and shall be submitted to the Attorney General not later than the first Wednesday of the August before the assembling of the General Court into which it is to be introduced. It may be filed with the Secretary of the Commonwealth if the Attorney General shall certify that the measure and its title are in proper form and that it is not, affirmatively or negatively, substantially the same as any measure which has been qualified for submission or submitted to the people at either of the two preceding biennial state elections, and that it contains only subjects not excluded from the popular initiative and which are related or which are mutually dependent.

The Secretary shall provide blanks for the use of subsequent signers. He shall print at the top of each blank a fair, concise summary of the proposed measure, as determined by the Attorney General as it will appear upon the ballot, together with the names and residences of the first ten signers. All such petitions, with the first ten signatures attached, shall be filed with the Secretary not earlier than the first Wednesday of the September before the assembling of the Legislature into which they are to be introduced, and the remainder of the required signatures shall be filed not later than the first Wednesday of the following December.

Section 3 of that part of said Article XLVIII under the heading "The Referendum III Referendum Petitions." is also amended by striking out the second sentence of such section and inserting in place thereof provisions that the Secretary shall provide blanks for the use of signers of a referendum petition on a law requesting that the operation of such law be suspended subsequent to the first ten signers and shall print at the top of each blank a fair, concise summary of the proposed law as determined by the Attorney General as it will appear upon the ballot, together with the names and residences of the first ten signers.

Section 4 of that part of said Article XLVIII under the heading "The Referendum III Referendum Petitions." is also amended by striking out the third sentence of such section and inserting in place thereof provisions that the Secretary shall provide blanks for the use of signers subsequent to the first ten signers of a referendum petition asking for the repeal of an emergency law or of a law which takes effect because the referendum petition does not contain a request for suspension, and shall print at the top of each blank a fair concise summary of the proposed law as such summary will appear on the ballot together with the names and residences of the first ten signers.

Questions

Question No 1

Law proposed by Initiative Petition

Shall this measure which by amendments of the General Laws (Ter. Ed.), provides for payment by the Commonwealth of adequate pensions to deserving citizens sixty-five years of age or over in need of relief or support, who shall have resided in the Commonwealth not less than five years immediately preceding the date of application for such pension, and who shall have resided in the Commonwealth continuously for one year immediately preceding said date of application, which is further described as follows;

The measure by amendments of General Laws (Ter. Ed.) c. 6, provides for an old age pension commission of three persons one to be a qualified physician, another to be an attorney at law and a third to be a non professional person, who are to be appointed and may be removed for cause by the Governor with the advice and consent of the Council, and are to serve under the Governor and Council. Not more than two members of said Commission shall be members of the same political party. Original appointments of members shall be for one, two and three years respectively, and thereafter appointments are to be for three years. Such members are to devote their whole time to the work of the Commission during business hours and be engaged in no other business, occupation or Profession. One of their number is to be designated as chairman by the Governor and shall receive a salary of $6,000, and each other member $5,500 per year, with their necessary expenses. The Commission is empowered to make and enforce rules and regulations as it may deem necessary in the performance of its duties and as may be approved by the Governor and Council.

The measure strikes out chapter 118 of the General Laws (Ter. Ed.), and inserts in its Place a new chapter entitled 'Adequate pensions for certain aged citizens'.

It is provided that pensions hereunder shall be paid from the date of application therefor, but in no event before the applicant reaches the age of sixty-five. The Commission shall render a decision not more than thirty days from the date of application for a pension or a request for an increase of the amount thereof. Such pension shall, wherever practicable, be paid to the aged person in his own home or in lodgings or in a boarding home, which for the purposes hereof shall include any institution providing shelter, care, and treatment for aged persons which is not supported in whole or in part by public funds; provided that no inmate of such a boarding home or institution shall be eligible for a pension under this chapter while being cared for under a contract. Such pension shall be paid by check or in cash which shall be delivered to the pensioner at his residence, if he so requests, and shall be paid semi-monthly unless the pensioner prefers less frequent payments. Such Pension shall be on the basis of need and the amount thereof shall be determined in accordance with budgetary standards established by the Commission. Budgetary standards shall be such as to enable an individual pensioner to maintain a standard of living compatible with decency and health. Such pensions, except as hereinafter provided, shall be at the rate of not less than [illegible] monthly the pensioner's budget at such times as may be required shall include medical care, if recommended by a recognized physician, eye glasses, if recommended by a recognized optician, dental care and false ~~[illegible]~~ teeth, if recommended by a recognized dentist.

In computing the pensioner's payment under this chapter, the Commission shall deduct from the pensioner's budget or the minimum payment whichever is greater, the amount of income the person paid or to be paid a pension hereunder may be receiving from any source, and may deduct therefrom such reasonable amount as may be deemed to represent the financial value of board, lodging or other assistance which is being furnished to such persons from any source.

Upon the death of a person receiving a pension, whose funeral cost does not exceed the sum of two hundred and fifty dollars and in whose estate there are insufficient assets to cover the full cost of the funeral, the Commission shall pay to the funeral director the difference between the assets ~~[illegible]~~ and the cost of the funeral, a sum not exceeding one hundred and twenty-five dollars.

Expenses for medical, hospital and other services rendered to a pensioner, which remain unpaid at the time of his death or commitment to an institution as an insane person, shall be paid directly to the person rendering such services.

No pension under this chapter shall be discontinued nor shall the amount thereof be decreased until the expiration of fifteen days notice thereof given by the Commission to the pensioner.

Provision is made by which a person receiving a pension may be absent from the Commonwealth six months without having such pension suspended.

It is provided that General Laws (Ter Ed) c 273; 20 which relate to the support of parents by children, shall not apply where parents are eligible to receive a pension.

Provision is made that there shall be set up in the Commission a subdivision of appeals under the jurisdiction of a supervisor of appeals. Any person aggrieved by the failure of the Commission to grant an adequate pension under this chapter, or by failure of the Commission to approve or reject an application for a pension or a request for an increase in the amount thereof, within thirty days after receiving such application or request for an increase in the amount thereof, within thirty days after receiving such application or request, shall have a right to a fair hearing, after due notice, upon appeal to the subdivision of appeals in the form and manner prescribed by the commission, provided that such appeal is received by the subdivision of appeals within sixty days after official notice of the action taken by the Old Age Pension Commission has been received by the applicant or pensioner. The decision of the subdivision of appeals shall be final and binding upon the Commission.

The Commission or any interested person aggrieved by any decision in any proceeding before the subdivision of appeals may obtain judicial review of such decision by filing within twenty days of the date of mailing of such decision a petition for review thereof in the District Court within the judicial district wherein the pensioner or the applicant for a pension lives.

In any proceeding for review the finding of the subdivision of appeals as to facts shall be conclusive. Such proceedings shall be heard in a summary manner and given precedence over all other civil cases. From the decision of a district court upon review an appeal may be taken to the Supreme Judicial Court.

The possession by an applicant for pension under this chapter of assets consisting of cash, active securities or inactive securities or any combination of such assets shall not disqualify him from receiving such pension, provided that the total of such assets, figuring the present cash values of such inactive securities at the sum determined by the Old Age Pension Commission, does not exceed the sum of $300.

A person is not to be disqualified from receiving a pension because of the ownership of an equity in vacant land from which there is insufficient income to provide for his budgetary needs or minimum requirements, or the ownership of an equity in real estate by an applicant who resides thereon or who, in the opinion of the Commission is residing elsewhere because of physical or mental incapacity, provided that if such equity on the basis of assessed valuation exceeds an average of $3,000 during the five years immediately preceding application for the pension, the applicant shall execute a bond in the penal sum for the amount of the equity in excess of $3,000 conditioned on repayment to the Commonwealth of all amounts paid as such pension without interest, such bond to be secured by a mortgage on the applicant's real estate. Provision is made for the recording of such bond and mortgage without a fee and the apportionment of the proceeds realized from any of them between the Federal Government and the Commonwealth.

A person is not to be disqualified from receiving a pension by reason of the ownership of a policy of group insurance or of a policy of insurance in an amount not exceeding $1,000 or of a policy of insurance in an amount not exceeding $3,000 having a cash surrender value not in excess of $1,000 if such policy has been in effect not less than fifteen years.

No pension shall be granted to an applicant who at any time within five years immediately prior to the filing of an application for such pension has made an assignment or transfer of property so as to render himself eligible to such pension. No pension shall be subject to trustee process or assignment and no applicant for a pension, who knowingly makes any false statements or perpetrates any fraud or deception in relation to his application, shall be granted any pension nor be eligible for one during one year thereafter. A person, his executor or administrator shall be liable in contract to the ~~Government~~ Commonwealth for expenses incurred by it for a pension paid to such person under this chapter if such person or his estate is in possession of funds not otherwise exempted thereunder.

If an application for a pension under this chapter is affected by the eligibility of the applicant to receive aid under General Laws (Ter. Ed), c 115, which relates to State and Military Aid and Soldier's Relief, the applicant shall be entitled to exercise such options and execute such waivers as may be necessary to receive the pension which he seeks.

All cities and towns in the Commonwealth shall furnish suitable headquarters for the carrying out of the duties of the of the Commission in such cities and towns.

The measure further provides that there shall be established and set up on the books of the Commonwealth a separate fund, to be known as the Old Age Pension Fund, consisting of receipts credited to said fund under General Laws (Ter Ed) C 64. G.L. (Ter Ed) C 128A ; 15, as amended, G L. (Ter Ed) C 138 ; 27 as amended, and all proceeds of taxes assessed under Act of 1941 C 729 ;; 9 & 9A.

The Old Age Assistance Fund as in force immediately prior to the effective date of this act is hereby continued in existence, but shall hereafter be entitled "The Old Age Pension Fund".

It is provided that all civil service employees in the Department of Public Welfare of the Commonwealth including the supervisor, referees, and employees of the subdivision of appeals in said department or of any city or town, employed in the administration of the Old Age Assistance Law on the effective date of this proposed measure, shall be transferred to the service of the Old Age Pension Commission, retaining their present civil service seniority, retirement rights and any step increases from the minimum pay of their grade earned during their service with said department or said bureaus.

It is provided that all records and property used in the administration of the Old Age Assistance Law and which are the property of the Commonwealth are to be transferred to the Old Age Pension Commission.
